

Behavioral Health & Developmental Disabilities Administration

FY21 Contract Coordination and Interfaces for Collaboration

Although the focus areas of FY21's initiatives may be similar across partners they are not identical in scope, capacity, purpose, or target audience/population. These connections do provide a rich opportunity to enhance outcomes, reduce redundancies, and maximize resources. The graphic below informs opportunities for collaboration and our commitment to coordination among organizations working to improve the lives of people with I/DD and their families in Michigan.
